What is the AHEC Scholars Program?

- AHEC Scholars is a statewide, community-based hotspotting program designed for students from selected health studies who are interested in improving patients' quality of care
- Specifically, AHEC Scholars students help support better patient outcomes for individuals in underserved and/or rural communities
- AHEC Scholars students will be awarded stipends **up to \$600 per year** for their full participation

The AHEC Scholars program
is funded
by a grant from HRSA

Program expectations:

- AHEC Scholars is a 2 year long commitment
- The application process will open March 1st, with all materials due by ***September 30th (extended deadline)**
- Students will receive acceptance letters starting in September and attend orientation in late October.
- Each year, AHEC Scholars students will complete 40 hours of community-based experiential learning, 35-36 hours of online didactic education, and 4-5 hours of team meetings
- The average AHEC Scholar should expect to spend 2-4 hours per week working towards their program requirements

Highlights:

- **Year 1 didactic learning topics:**
 - Super utilizers
 - Trauma informed care
 - Drug related stigma
 - Motivational interviewing
 - Interprofessional teamwork
- **Year 2 didactic learning topics:**
 - Healthcare reform
 - Accessing care for refugees/immigrants
 - Mental health diagnoses
 - Neurobiology of addiction
 - Implementing Quality improvement
- **Experiential learning:**
 - Each year, students will seek experiential learning opportunities both within and outside of their academic program.
 - Experiential learning must be community focused and providing for medically underserved and/or rural populations.

Cohort 5 Orientation, 2022
